After the stock purchase, the Group establishes a management organization, regularly confirms whether contribution to the Group's business can be expected by looking at the earnings of the company in which the investment was made, and reports to the Board of Directors before the Group sells the shares ownership of which no longer makes much sense while taking into account its impact on the market.

The Company discusses various agenda by employing diverse methods including conversation with the company in which the Group has invested to determine taking into account whether exercising shareholder rights will contribute to sustainable growth of the target company and to raising its medium and long-term corporate value, or whether it will hurt the Group's corporate value.

[Principle 1.7] (Related Party Transactions)

The Group complies with the stipulations of the Companies Act, and if Directors engage in competitive transactions or conflict of interest transactions, the Board of Directors' rules stipulate that such transactions require approval of and report to the Board of Directors.

[Supplementary Principle 4.11.3] (Analysis and Evaluation of Effectiveness of the Board of Directors as a Whole)

Each fiscal year, the Company analyzes and evaluates the effectiveness of the Board of Directors, centering on external Officers (external Directors and outside Audit & Supervisory Board Members).

Specifically, the Board of Directors Secretariat conducted questionnaires and interviews with all Directors and Audit & Supervisory Board Members individually on questions such as whether the operation and information provision of the Board of Directors were appropriate and sufficient, and whether the opinions received from external Officers during evaluation last year (e.g., further enhancing provision of information relating to changes in business environment affecting the Company and provision of information for deeper understanding of Board of Directors resolutions) have been addressed, and in light of the results thereof, held discussions with all external Officers, and made its evaluations, which confirmed that such matters have been appropriately addressed.

b. Executive Officers

The Company has adopted an executive officer system (executive officers are the Executive President, Executive Vice Presidents, Senior Executive Officers, and Executive Officers), which enables the Directors of the Company to focus on making business decision and monitoring and supervisory functions, and worked toward strengthening the business efficiency and the supervisory functions by vitalizing the Board of Directors. Executive officers perform duties determined by the Board of Directors, and some Representative Directors and Directors concurrently serve as executive officers to make management decision-making more accurate and efficient.

c. Management Meeting

The Company examines basic management policies and important management issues at the management meeting and fully deliberates the foregoing before decision-making. In accordance with internal regulations, the management meeting consists of the President, Executive Vice President, Senior Executive Officer, Head of Corporate Headquarters, and Head of Business Division. In principle, three times per year management meetings are held as “CSR Promotion Meetings”, which deliberate on plans for CSR activities and make report on CSR activities.

d. Audit & Supervisory Board, Audit & Supervisory Board Members

The Audit & Supervisory Board consists of five Audit & Supervisory Board Members, of whom three are outside auditors and each Audit & Supervisory Board Member monitors the execution of work duties by the Directors.

e. Audit Division

The Company established the Audit Division as an internal audit division, and from an independent and objective standpoint based on annual audit plans and the like, it evaluates operational practices' compliance with standards and efficiency and the appropriateness of systems and standards and identifies issues to provide suggestions and follow-ups towards improved operations of audited bodies and shares audit results with the Management Meeting. The Audit Division aims to maintain and improve the quality of audit operations, such as by undergoing regular external evaluations.

f. Advisory Committee

To maintain objectivity and achieve transparency in the decision-making process, matters relating to appointment of Director and Audit & Supervisory Board Member candidates, appointment and dismissal of Representative Director and other Executive Officers, and matters relating to Directors' remuneration are deliberated at an advisory committee made up of a majority of external Officers before decision is made in light of such deliberations. The committee is comprised of inside and outside members, with outside committee members being all of the outside officers (the three outside Directors and the three outside Audit & Supervisory Board Members). The inside committee members are the President and if necessary, persons appointed by the President (the President may appoint up to two members who are Representative Directors). The committee chairperson is appointed by the committee members.

g. CSR Committee

The Company has established the CSR Committee to coordinate and advance group-wide CSR activities, which is chaired by the “CSR Executive”, who is the officer in charge of overseeing the Group’s CSR activities, and is composed of the General Managers of relevant divisions. The CSR Committee promotes information security, risk management and other aspects of the Company’s CSR activities.

h. Investment Evaluation Committee

The Company has established the Investment Evaluation Committee, which is chaired by the Head of the Corporate Planning Headquarters and composed of the General Managers of relevant divisions. The committee examines risk and return and makes an evaluation on investments exceeding a certain amount, and it reports findings to the management meeting and assists appropriate investment decisions.

(2) Matters relating to outside Directors (roles and functions of outside directors)

Based on their own experience and insights in their respective fields, each outside Director plays a role in decision-making as a member of the Board of Directors and monitors and supervises the execution of work duties of the executive Directors from an independent viewpoint.

(3) Initiatives for bolstering the functions of the Audit & Supervisory Board Members

The Company selects three outside Audit & Supervisory Board Members, who monitor the execution of work duties of the Directors from an independent viewpoint and strive to raise the effectiveness and quality of auditing by sharing information as necessary by holding regular meetings concerning annual audit plans and audit reports. Office of Audit & Supervisory Board with a dedicated full-time staff which is not under the direct control of the executive Directors has been established to support the Audit & Supervisory Board Members’ auditing work and thus improve the auditing system.

The Audit Division, Audit & Supervisory Board Members, and accounting auditors share information from time to time as necessary, including regular meetings on annual audit plans and audit reports, among other things, thereby working to enhance coordination and ensure the efficacy and quality of audits. Further, the Head of the Audit Division and outside Officers (outside Audit & Supervisory Board Members and outside Directors) exchange opinions regarding the status of internal controls and risk management.

(4) Policies on Deciding Remuneration for Officers

To maintain objectivity and achieve transparency in the decision-making process, the remuneration for each Director shall be deliberated at an advisory committee made up of a majority of outside officers before decision is made by a resolution of the Board of Directors, with such amounts being within the maximum amount approved at the Annual Meeting of Shareholders (¥63 million per month). For making such decisions, the Company has designed a remuneration system for Directors, referring to levels of remuneration at other companies and each Director’s roles and responsibilities, to encourage their efforts to realize consistent growth and increase medium and long-term corporate value, in which a Director’s remuneration consists of a fixed amount and a performance-based amount linked to the consolidated business results of the Company for the past three years. The advisory committee is comprised of inside and outside members, with outside committee members being all of the outside officers (the three outside Directors and the three outside Audit & Supervisory Board Members). The inside committee members are the Company President and if necessary, persons appointed by the President (the President may appoint up to two other Representative Directors). The committee members elect the committee chairperson from amongst themselves.

(*1)The amount of remuneration for Outside Directors is fixed because they are in a position independent of the execution of the Company’s businesses.

(*2)Directors, except Outside Directors, purchase the Company’s shares through officers’ shareholding association, to which they contribute a certain amount of money from their monthly remuneration.

Remuneration for each Audit & Supervisory Board Member shall be determined through discussions among Audit & Supervisory Board Members within the amount of remuneration (up to ¥14 million per month) approved at the Annual Meeting of Shareholders, taking into consideration the position, etc. of each Audit & Supervisory Board Member.

The system of paying retirement benefits to Directors and Audit & Supervisory Board Members has been abolished.

(5) Policies on selecting candidates for Directors and Audit & Supervisory Board Members

To attain sustainable growth and improve medium and long-term corporate value, candidates for Directors and Audit & Supervisory Board Members are in principle selected from a diverse group of people taking their knowledge, experiences, abilities, and personalities etc. into account.

Based on this, when selecting, the Company takes into consideration expertise in managing the Group's energy business and other businesses for internal Director candidates and the individual's independent-mindedness for making objective judgments, and whether they have wide-ranging knowledge, wealth of experience, and expertise in their specialized fields for external Director candidates.

In selecting candidates for Directors and Audit & Supervisory Board Members and selecting and dismissing Representative Director and other Executive Officers, pursuant to the above policy, the Company makes a decision based on the deliberation of a voluntary advisory committee in which external Officers comprise a majority from the standpoint of securing objectivity and transparency of the decision-making process (the composition of the voluntary advisory committee is the same as the remuneration advisory committee.)

The Company also formulated an action plan and is proceeding with efforts pursuant to the Act on Promotion of Women’s Participation and Advancement in the Workplace. While 15% of female employees were career-track employees in FY2004, this figure reached 34.0% in FY2018, and whereas women accounted for only 0.3% of management in FY2004, the figure reached 3.4% (including four division general managers) in FY2018.
