

Conclusion of “Agreement on Coordination and Cooperation in the Event of a Large-scale Wide-area Disaster” with the Union of Kansai Governments

March 26, 2020
Osaka Gas Co., Ltd.

We are pleased to announce that Osaka Gas Co., Ltd. (President: Takehiro Honjo) has today concluded with the Union of Kansai Governments (President: Toshizo Ido) the “Agreement on Coordination and Cooperation in the Event of a Large-scale Wide-area Disaster.”

Osaka Gas will thereby, together with the Union and its constituent prefectures and government-designated cities, proceed to develop an information-sharing system for normal times and a coordination and cooperation system for use in times of disaster so that the daily lives of residents will be less disrupted and gas supply promptly restored in the event of a large-scale wide-area disaster.

◇ Outline of the Agreement

1. Information sharing in preparation for large-scale wide-area disasters

<In normal times>

Establishing an information-sharing system in which mutual contact points are clarified, and sharing information on which key facilities should be given priority for restoration in the event of a disaster.

2. Coordination and cooperation in the event of a large-scale wide-area disaster

<In times of disaster>

Sharing information on the situation of damaged roads and major gas facilities; areas where gas supply is suspended; recovery plans such as gas supply restoration; and elimination of obstacles on roads.

<During restoration>

Coordinating and cooperating in projects for eliminating road obstacles and restoring gas supply.
