

**Launch of Sagasuru, an online learning service,
connecting people who want to learn with people who want to
teach**

July 20, 2021
Osaka Gas Co., Ltd.

From August 2021, Osaka Gas Co., Ltd. (Representative Director and President: Masataka Fujiwara) will start a nationwide online learning service called Sagasuru, which connects people who want to learn with people who want to teach, at any time and any place.

Sagasuru does not specialize in just one category, such as cooking or language, and students of Sagasuru can freely choose lecturers and courses from a wide variety of fields, including fitness and business skills. Lecturers and students can register for the online service from across the country, and you can freely join or withdraw from it as you wish, so that you can readily participate in courses you are interested in. In addition to such online learning, this service can also be utilized for various events and used as a communication forum, such as virtual guided tours or livestream concerts. Through this interaction platform, we aim to provide our customers with services that are useful for their daily lives and to create business opportunities for companies and individual business operators affected by the spread of COVID-19.

By appointing popular actress Mayu Hotta as the face of Sagasuru, we will convey the appeal of the online service to more of our customers.

Through further utilizing our digital technologies and swiftly and flexibly responding to changing customer needs, the Daigas group will offer added value to our customers and contribute to realize lifestyles and businesses corresponding to the “new normal.”
