

**Osaka Gas to Launch “Sasuga Net” Internet Services**  
**—A Wide Variety of Service Plans to Meet the Needs of Individual Customers—**

February 28, 2022

Osaka Gas Co., Ltd.

On March 1, 2022, Osaka Gas Co., Ltd. (President: Masataka Fujiwara) will start accepting sign-ups for “Sasuga Net,” Internet services that meet the needs of individual customers.

Osaka Gas has addressed a wide variety of customer needs by providing one-stop services, including not only the supply of energy, such as gas and electricity, but also Sumikata Services, which help customers with home-related issues, such as gas equipment repairs and renovations. With these new Internet services, Osaka Gas will meet the request of customers who want a package deal contract for home necessity services.

With the increasing popularity of online games and video content and the recent spread of working from home due to the coronavirus pandemic, home internet is being used more often and facing increasingly diversifying needs. To meet these customer needs, Osaka Gas will offer three service plans that differ in transmission speed, monthly charge, and service contents. For customers who have signed a gas contract with us, we offer contract benefits such as “Set Discounts” that combine gas and Internet, and “Start Discounts” that offer special savings for the first year after signing the contract. In addition, as a limited-time campaign, we are offering the “Matometoku Campaign,” in which customers who sign up for gas, electricity, and Internet together will receive up to 1,100 extra My Osaka Gas points, which can be exchanged for T points, Rakuten points, etc.

To promote the launch of Sasuga Net, Osaka Gas will newly use Riho Yoshioka and Shun Matsuo (from Chocolate Planet) as the faces of these services. As the characters of the “Sakidori (early adopter) Couple,” a wife who loves to try new things and good deals and her husband, who loves her because of these qualities, Yoshioka and Matsuo will promote Sasuga Net from the customer's viewpoint.

The Daigas Group proposes added value in quick and flexible response to changes in customer needs to keep a close eye on changes in customers' lifestyles and business styles, and it provides optimal services and solutions for individual customers, aiming to help the customers establish a lifestyle and business style that correspond to the new normal amid the changes.

1. Osaka Gas's "Sasuga Net" Internet services  
Internet service plan overview

## 大阪ガスのインターネット

 **めっちゃはやプラン**

高速の  
光回線サービス

下り最大2Gbps\*  
上り最大1Gbps

 **はやとくプラン**

安定した快適な  
光回線サービス

下り最大概ね1Gbps\*  
上り最大概ね1Gbps

 **とくとくプラン**

コスパを重視した  
お手軽なサービス

下り最大320Mbps\*  
上り最大10Mbps

Note that the maximum transmission speeds shown above are based on technical standards and that the actual transmission speed may be lower (change) depending on line congestion and the customer's telecommunication environment.
