

Daigas Group Integrated Report selected as an “Excellent Integrated Report” by GPIF’s external asset managers

February 27, 2024
Osaka Gas Co., Ltd.

On February 21, 2024, the Daigas Group Integrated Report 2023 was selected as an “Excellent Integrated Report” by the Government Pension Investment Fund (GPIF)’s external asset managers entrusted with domestic equity investment.

In FY2023, the GPIF requested 13 external asset managers to nominate up to 10 companies each. As a result, 70 companies, including Osaka Gas, were selected as companies that produce "Excellent Integrated Reports."

Many asset managers considered "content leading to enhanced corporate value" as one of the criteria for evaluating integrated reports.

We believe that our Group was recognized for its efforts to resolve ESG-related social issues through business activities while also enhancing our Group's corporate value and achieving sustainable business growth based on the resolution of the problems.

As a responsible corporate group, we will continue providing information and fulfilling our accountability to our stakeholders as we strive to contribute to building a sustainable society.
